

From Cocoa Beans to Chocolate Dreams

Dear Newest Associate,

We are honored that you have made the decision to be a part of our Healthy Chocolate Family and are anxious for you to experience for yourself the benefits of our Xoçai™ products. Each product has been formulated to provide you with a significant amount of antioxidants from cold-pressed cacao and freeze-dried açai berries without the refined sugars and unhealthy fats, fillers and preservatives found in most other chocolate products.

Thousands have reported better health and wellness from consuming the Xoçai products, especially increased energy, enhanced sense of well-being and lasting weight loss. We love hearing the life-changing stories, and soon you will be sharing your own.

We hope that you choose to share our Healthy Chocolate business opportunity. Every day over one billion people worldwide eat chocolate. In fact, the average American consumes more than 12 pounds of chocolate each year. This business is simple: replace the bad with the good. The best part is that you will be paid to eat and share our Healthy Chocolate.

Again, we welcome you into our Healthy Chocolate Family as the newest Associate. And, we wish for you improved health and increased wealth as you pursue your goals and dreams with the Xoçai products and the Healthy Chocolate business opportunity. Welcome to the Wonderful World of Xoçai!
